

Lucine & Asaavari *for* Co-Chairs

We're passionate about healthcare and female empowerment! What better way to support these causes than through FemTech?

Here's what we'll bring to the table:

- Bigger, more focussed events
- Career-boosting opportunities
- A strong and supportive community!
- Debates about cutting-edge FemTech
- Open discussions about female health conditions like PCOD and Endometriosis
- A weekly newsletter written by you for you
- Socials: speech-viewings, themed dinners

THE FUTURE OF TECH IS FEMALE

Reach out, we'd love to chat!
