

VOTE FOR DEP REP!

Imperial College London
Department of Chemical Engineering

DENIZ ETIT

My Vision

Hi all, I am Deniz and eager to be YOUR REPRESENTATIVE focusing on wellbeing towards a department that is home for us all! I also have past representation and personal experience to do so.

For my full manifesto, see here:

Financial Wellbeing

Chem Eng doctoral salaries increased 3.1% this year - whereas the inflation was 6.7%. My first aim is making sure inflation is properly reflected on our wages.

Mental Wellbeing

An online platform will enable you to share with us, if preferred anonymously, if you're experiencing high work pressure, non-inclusivity, etc. I will contact the people in charge, taking actions towards a department that is home for us all!

Connect Us Stronger

Improving academic events & more leisure events!

..And more!

Suggest any project or improvement for our department. We will improve together!
