Why I would be a good treasurer

What makes a good treasurer?

According to chat GPT:

1. Attention to detail: a good treasurer is detail-oriented, ensuring that every transaction, receipt, and budget item is accurate and well documented.
2. Organisational skills: keeping track of finances, receipts, budgets, and other financial records in an organised way is crucial. A good treasurer has a system that makes it easy to find and review financial information.
3. Communication: a good treasurer needs to clearly communicate with teammate coaches about the financial status of the team. This includes explaining budgets, progress on fundraising goals and addressing any financial issues or concerns.
4. Trustworthiness and integrity: as someone handling money, it's essential for a treasurer to be reliable and honest. Team members and parents need to trust that funds are being managed responsibly.
5. Financial knowledge: a solid understanding of budgeting, tracking expenses and income is important.
6. Problem-solving skills: there may be unexpected expenses or challenges in raising funds, a good treasurer thinks creatively to find solutions and keep the team financially stable.
7. Proactive and responsible: being a step ahead in managing funds, anticipating needs and making sure the team is prepared for upcoming costs.
8. Team oriented: while the treasurer deals with finances, it's important to remember that this role serves the whole team. A great treasurer is always mindful of the team's needs and works to ensure they're supported financially.
