

Hey Everyone!

This is Me!

STANDING FOR
ACADEMIC REPRESENTATIVE

"A dream becomes a goal when action is taken toward its achievement."
- Bo Bennett

I'm Marya and I'll be running for Academic Representative for Phase 1a.

So much has been going on for the last couple of weeks and it has been wonderful meeting so many of you! I look forward to getting to know many more of you ☺

Goals & Targets

It is undeniable that we all have big aspirations - otherwise we wouldn't be here. Which makes us all sit on the same boat! You all know the importance of setting goals, so here are mine if I get elected as your academic rep.:

- Open communication channels to gain common ground and successfully translate the needs of the phase 1a cohort into actions
- Promote Academic Integrity for a fair learning environment
- Facilitating student-faculty interactions for foster mutual understanding
- Enhance study spaces, facilities & resources to maximise effective learning
- Celebrate academic achievements to promote a culture of academic excellence

a little about me

I'm a home student from Manchester but, I've actually lived all around the world: the Middle East, North Africa, Europe and the US. London really reflects the multicultural childhood I got to live and I'm loving it so far!
In terms of hobbies & interests I love to swim, work on pottery & ceramics, paint and horse-ride. But above all, I love watching films - something which I can never say no to!

why you should vote for me!

As one big medic family it is our role to look after one another so I am not just a candidate; I am a fellow student who understands the challenges and aspirations we all share. Your concerns will be my concerns. Your ideas will shape my actions. I am here to represent you and amplify your voice!

Transparency is the cornerstone of effective representation. I pledge to be open, honest, and accountable in all my dealings. You deserve to know what is happening, and I am dedicated to keeping you informed about the decisions that affect our academic lives.

Last but not least, the ICSMSU and other wonderful societies do fantastic work on outreach and providing all the resources and information required. My hope through this role is to seamlessly and rapidly communicate your needs as students to senior teams and maximise the positivity of your experience at Imperial!
