

Vote Mahmoud for CIVSOC Chair

A CIVSOC you need, a CIVSOC you deserve

Aims:

- Have more social events (Boat party, Olympics, Lego building competition)
- Lunchtime socials with free food, allowing us to connect more as a cohort
- Organise more site visits and consultancy office visits, giving students an experience of the working environment
- Collaborate with other Civil Engineering societies in London and make building competitions (boat building, LEGO and K'Nex tournaments), allowing us to implement theoretical knowledge
- Lectures of interest about specialist topics from guest lecturers, helping students find a possible career option they would be interested in
- Stock cutlery near the Skempton microwaves (we've all had to walk to SAF)
