

## Manifesto

**Secretary** at Imperial College London German Society

***Quentin Wolf***

After getting involved in organising events for the German Society as Vice President last year, I am now looking forward to enhancing my engagement and serve as the ***Secretary*** at the Imperial College London German Society.

1. **New Ideas!** – As a *Secretary*, I would like to organise and develop new event formats. In order to determine the best ideas, I would like to follow up on your wishes and ideas.
2. **New Drive!** – As a *Secretary* I would not only try to support the President and the committee in arising challenges as good as I can further, I would also develop own projects on behalf of the President. My goal is to establish more versatile events e.g. interactive dialogical formats.
3. **Variety!** – Based on the joy I experienced in the past due to organising events and bringing people together, it would be an honour for me to contribute to a vibrant German Society at Imperial College London.

Thank you for your support!

A handwritten signature in black ink, appearing to read 'Q. Wolf', with a stylized, sweeping flourish at the end.
