

Vote River! Vote for someone who knows You!

Bridging our gap between excellence and people

As your Year 1 Academic Representative, I aim to ensure that everyone experiences an enduring and successful first year of studies with minimal effort from both the Students & Civil Engineering Department.

To achieve the above, I'll constantly, *intimately*, ask **YOU** for **YOUR OPINIONS** on the course and highlight them to the department. From there, we'll work to resolve said issues, relying on our collective experiences, including my own as a student in the course and army instructor.

-River Pang

A little bit more about me:

I come from Singapore (love to complain) and have spent the last 2 years in the army, with my last year there as a drill sergeant (used to getting complained to). Before that I studied IB in UWCSEA East. Besides surviving at Imperial, am currently trying to learn how to kayak and play floorball. My strengths are my enthusiasm, past experiences, and I'm very open to meeting new people & entertaining new ideas.
