

# VOTE RONAK

MBBS PHASE 1A WELLBEING REPRESENTATIVE

Medicine is an emotionally challenging course. Let's work together to make sure we get through this okay.

Reasons to vote for me:

- I have extensive experience working in mental health services and online mental health crisis support.
- I'm genuinely passionate about making sure everyone in our massive cohort feels heard and supported. We're going to spend the next six years together!
- I love learning about people and their stories. DM me online or approach me in person for a chat!
