### EXPERIENCE

**Sponsorship Officer of IC FemTech Society:** Helped in the organisation and planning of events and outreach to sponsors

**Speaker Coordinator for IC TEDx Society:** Outreach to speakers to give talks on campus

**Subcommittee for the inaugural IC Medathon (Medical Hackathon):** Worked with team in the running of a 2-day hackathon on campus

Aiming to organise very fun socials for all students to unwind and relax with course mates outside of lectures! I want to organise events that will be the highlight of your year as you make memories and have fun with your peers

### AIMS, GOALS & IDEAS

- **Potentially trying to organise a Bioengineering Society trip for a fun weekend getaway after exams! This is something many students I have spoken to have expressed interest in so I will try very hard to make it a possibility**
- **Ensure the smooth running of events such as Mums & Dads, Christmas dinners**
- **Organize year-group based socials**
- **Hear YOUR ideas for events and try to organise as many as possible!**
