

Some Kind Words – From Honest Folks

Ollie Lock

ME2 Student & Second

"I highly recommend Steven for the role of

Departmental Academic Rep. You can be sure that Steven will perform the role to a very high standard - pushing to bring about your suggestions for changes in Mech Eng, but most of all he is a friendly and kind person who is always willing to listen if and when you need it. He has done a great job as 2nd Year Academic Rep so far, and I know how passionate he is about this future role."

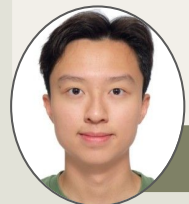

ME1 Academic Representative

Ateeb Rehman

"It was clear since the first meeting that Steven wasn't just a name to fill in a role, but was somebody wanted to be leverage the position to push forward change. Since then, his passion to make others lives easier has never dimmed. Time and time again he has outdone himself, going the extra mile no matter the issue. **I have no reason to doubt that he will keep the same mentality as the Departmental Rep.**"

"I have had the privilege to work with Steven this year as fellow academic representatives. Not only is he a committed and passionate leader seeking to constantly improve student experience but also a kind and humble individual who will give it his 110% when dealing with our queries. **I am sure that he will be an outstanding departmental representative for us next year and I recommend him with enthusiasm.**"

Adrian Leung

ME3 Academic Representative

"It is rare to find a rep who genuinely cares so much about their peers, and devotes as much time to their role as Steven. Having been very active within the rep group, he has a good overview of the problems that students face within the department as a whole, and seems to have a mind for bright new ideas to address them. With his drive, empathy for others, and innovative ideas, **I'm sure Steven will make an amazing Departmental representative.**"

ME4 Academic Representative
