I'm running for the roles of
President, Vice-president & Major Event Officer

I love trying chaotic new things (a.k.a ME), can talk endlessly about literally anything, find comfort in the community around me and kaya toast is my spirit animal.

ICSS has played a huge role in enabling me to ease into university and I want to serve the community that had made all of us feel so welcome. I would love to organize events that continue to empower and connect us while we pursue our studies.

CREATIVITY in finding new ways to capitalise on existing partnerships and resources,

with an emphasis on growing the ICSS **COMMUNITY's** spirit and influence to provide the best opportunities for members.

I put others first and can be a **reliable ambassador** for ICSS, while overseeing the execution of meticulously planned events.

I believe in leading with my heart in an organised and meaningful way - to make ICSS our home away from home, continue the excellent relations with organisations that support us and foster friendships for life.
